by G.L. Creasy : **Grapes (Crop Production Science in Horticulture)**

ISBN : #1845934016 | Date : 2009-01-30

Description :

PDF-08278 | Grapes are one of the world's most widely-planted horticultural crops, used to make a variety of fresh, dried and processed products. The science of grapes and grape production are discussed through an examination of wine grapes as well as grapes for fresh consumption and raisin production. Providing historical and current information about the grape industry, the chapters cover genetics, breed...
